Heart Disease Cared By Dr. Miles' Heart Cure.

Painting, Weak or Hungry Spells, Irregu-lar or Intermittent Pulse, Fluttering or Palpitation, Choking Sensation, Shortness of Breath, Swelling of Feet and Ankles, are ms of a diseased or Weak Heart

MRS. N. C. MILLER.

Of Fort Wayne, Ind., writes on Nov. 29, 1804; "I was afflicted for forty years with heart trouble and suffered untold agony. I had weak, hungry spells, and my heart would palpitate so hard, the pain would be so acute and torturing, that I became so weak and pervous I could not sleep. I was treated by several physicians without relief and gave up ever being well again. About two years ago I commenced using Dr. Miles' Remodies. One bottle of the lieart Cure stopped all heart troubles and the Restorative Nervine did the rest, and now I sleep soundly and atousehold and social duties with

A GREAT SCHEME

To Control the Grain Carrying Trade of

ST. PAUL, Sept. 8.-The Dispatch today says some six weeks ago President A. B. Stickney, of the Chicago, Great Western rallway, threw a bomb shell

Western railway, threw a bomb shell into the camp of competing roads at a special meeting of the inter-state commerce commission at Chicago.

This was the first intimation of several gigantic schemes in the grain carrying line which took birth in the fertile mind of Mr. Stickney and are made practically public property by the return from Europe of Ansel Oppenheim, whose mission was to secure a large sum of money necessary to the promotion of the project. When it is stated that Mr. Oppenheim secured something like \$5,00,000, an idea is at once conveyed of the Immensity of the project, as well as the confidence of European investors in American securities. When before the interstate commerce commission, Mr. Stickney told of the existence of the corporations of which they had probably heard, but to which they had probably heard on to explain that the ownership of the companys and the Angio-American Grain and Provision Company, he went on to explain that the ownership of the companies and the Great Western railroad were practically identical, and that the reason the road got the southwestern grain shusiness was because the road was a grain buyer to all purposes and was hauling its own property.

But President Stickney did not tell the commission, because it was not necessary, for the great plan was just then in embryo and at that very moment Mr. Oppenheim, was in London, engaged in showing capitalists the opportunities which lay in the great railway and elevator system of which the Chicago Great Western raillway, the Iowa Development Company, and the Angio-American Grain and Provision Company were to be the nucleus.

This western railway, the Iowa Development Company is of the property of the

be the nucleus.

This he exploited to their satisfaction and now he is back in St. Paul with the money necessary to the furtherance of the plan.

It is the intention to erect a series of

great elevators reaching from the west to the scaboard, the first of which is now in process of construction at Kansas City, one each at St. Joseph, Omaha, Leavenworth. Topeka and Minneapolis, with two large terminals at St. Paul, one at Buffalo, and one probably at Liverpool, will be necessary to the scheme. It is understood the three corporations

It is understood the three corporations will be practically consolidated and, between buying and handling, will largely control the grain and provision trade of the southwest.

The precise details of the deal are difficult to be reached, as the officials and those connected are reflecent until the terms are more thoroughly settled, but it is certain the great dream of President Stickney's life seems in a fair way to be realized and very shortly. Stickney's life seems in a realized and very shortly.

A LETTER FROM INDIA From a Wheeling Man on the Silver Sit-

nation There.
Incidental to the silver question in

India, which has been brought to publle notice through interviews with Bishop J. M. Thoburn, the following letter from Rev. B. J. Chew to his mother in this city, will be of interest. Rev. Chew is the principal of the boys school in Calcutta. He writes as fol-

Rev. Chew is the principal of the boys school in Calcutta. He writes as follows:

"Yes, I am much interested in American politics. I am a Prohibitionist, but just now I feel that unless McKinley is elected, we shall have a hard time here in India. The bishop cannot go home as before, but must stay in India and that means that we shall get less of the special help that we have been getting. My hope is that better times in '5' will mean more money for missions. Otherwise, there must be a large reduction in our expenditures and our force of workers.

If the folks in the United States had some of the impressions given out by people in India they would fight shy of "free silver." It is not bad for us missionaries for we get more rupees for the dollar and there is no corresponding decrease in the local purchasing power of the rupee. Business men who receive their cash in silver must pay it out in gold, are the complainants."

World's Record Broken.

DENVER, Col., Sept. 8 .- The world's secord for 25 miles on the road was broken in the Denver labor day road The judges have not yet decided race. The judges have not yet declided whether to give the time prize to Joe E. Marshall or E. Tyler Smith, nor has the time been definitely declided, although it will be about 1:02:20. The time prize would have been won by Max Freutz, had he not fallen within a few yards of the finish, causing so much confusion that the judges became muddled.

Nat M. Gilman, with nine minutes' handleap, won the race, his time being 1:06:41.

Distinguished Passengers.

Star line steamship Majestic, which sails from this port to-morrow, will take among her passengers the earl of West-meath, Baron Hengel-Muller von Hen-gervar, the Austrian minister to the United States, and prince and princess Furnali

Buried Beneath Clay

Patent to West Virginians.

Special Dispatch to the Intelligencer.

WASHINGTON, D. C., Sept. 8.—A patent was granted to-day to Jason W. Board and E. B. Hyre, of Elk Fork, W. Va., for a churn.

Industrial Works Burned.

CARLISLE, Pa., Sept. 8.—The Mechanicsburg Fifth Wheel Works, formerly known as the Ringrose net works, one of the largest industrial establishments in the town, have been destroyed by fire. Loss, \$30,000.

More Gold Coming In.

NEW YORK, Sept. 8.—The steamship
La Normandle has brought 8,865,000
francs in gold.

So Mr. Gliman Brown, of 34 Mill st., South Gardner, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the heat in the world for Lung trouble. Trial bottles free at Logan Drug Co.'s Drug Store. Your Boy Won' Live a Month.

Drug Store.

SINCE 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colle, Cholena and Diarrhoea Remedy was used with perfet success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages, this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints.

FINANCE AND TRADE

The Festures of the Money and Stock

Markets. NEW YORK, Sept. 8.-Money on call firm at 566 per cent; last loan 5 per ent. Prime mercantile paper nominally 7079 per cent. Sterling exchange steady, with actual business in bankers' bills at \$4 81@4 84% for demand and \$4 82%@ 4 82% for sixty days. Posted rates \$4 83@4 84% and \$4 85@4 86. Commercial bills \$1 82. Bar silver 66%c, Silver certificates 66%6867. The stock market to-day was moderately active and the course of prices

The stock market to-day was moderately active and the course of prices' irregular. There was clear evidence of manipulation by operators for both accounts with the bears in control in the forenoon and the buils in the afternoon dealings. The only news bearing upon prices consisted of the declaration of the regular quarterly dividend by the Manhattan directors, the recommendation of the declaration of the regular disbursement on Western Union and the St. Paul annual report. London prices came lower as a result the regular disbursement on Western Union and the St. Paul annual report. London prices came lower as a result of bear strategy, it was claimed, and the local opening, under this influence and realizing, was decidedly weak with the industrials and specialties the chief sufferers. The early declines extended to 1½ pr cent. After 1 o'clock the market turned on execution of buying orders for both accounts and displayed more animation than had characterized the reaction and the traders were active in bidding up prices, especially in Sugar. The closing was at the top level at gains of a point or thereabouts in many shares.

Bonds rose sharply in sympathy with-the improvement in stock values. The sales were \$790,000.

Governments were dull but strong on purchases of \$10,500.

Sinte bonds were dealt in to the extent of \$21,500 at slight changes.

The total sales of stocks to-day were 188,349 shares.

Evening Post's London financial cablegram:

The stock markets were lifeless to-
